

## Track 2 (Integrated Planning for Holistic Solutions): Workshop #1

### Challenges & Solutions for Integrated Planning

Thursday, July 29th • 10:00 AM - 12:00 PM

Following up from the introductory webinar for *Track 2: Integrated Planning for Holistic Solutions*, this interactive workshop will continue to explore major challenges shared amongst adaptation practitioners when pursuing integrated adaptation planning. Track participants will delve into five key challenge areas: 1) insufficient resources, 2) competing priorities, 3) siloed sectors, and 4) ineffective governance. But we're not just focusing on challenges. After we have a clearer understanding of specific issues and barriers, participants will begin to identify case studies, promising practices, and potential solutions to overcome identified challenges. We hope you can join us for this engaging session!

---

#### 10:00 | Welcome

- Welcoming Remarks
- CAF Code of Conduct & Group Norms

#### 10:15 | Visioning

- Exercise to Establish a Common Vision  
*What are we trying to accomplish with integrated adaptation planning? What does it entail?*

Proposed Integrated Adaptation Planning Vision:

Adaptation planning efforts effectively address the cascading and compounding impacts of climate change, spanning all areas and levels of government to create holistic adaptation solutions that address impacts to people and communities, natural systems, working lands, built infrastructure and social systems.

#### 10:30 | Integrated Adaptation Planning Challenges

- Overview of Key Challenge Areas
  1. Insufficient resources, staff capacity constraints, and lack of decision-making support tools
  2. Competing priorities amongst decision-makers regarding climate impacts, community needs, and more
  3. Siloed sectors inhibiting a comprehensive and holistic response to climate change across impacted sectors
  4. Ineffective governance and lack of effective coordination across jurisdictions and levels of government

- Breakout Discussions

*What are the specific issues and barriers you are facing related to the challenge area?*

11:10 | Stretch Break & Jamboard Review

### **11:20 | Integrated Adaptation Planning Solutions**

- Breakout Discussions

*What are some strategies for, and examples of, overcoming the specific barriers identified?*

### **11:55 | Closing**

- Closing Remarks & Next Steps

12:00 | Adjourn
